SUNRISE FAMILY MEDICINE
Chicago, IL | (312) 555-0198

Durable Medical Equipment Order

Patient	Eleanor Martinez | Age 72
Medical record	SFM-0041827
Order date	October 17, 2026
Ordering clinician	Sarah Chen, MD
Equipment	Standard manual wheelchair | HCPCS K0001
Quantity / duration	One wheelchair | Length of need: 99 months

DIRECTIONS

Provide a standard manual wheelchair for use inside the home. Fit and instruct the patient on safe use; include standard footrests and appropriate seating adjustment.

MEDICAL NECESSITY

The patient has a mobility limitation that substantially impairs routine activities within the home. She cannot safely and reliably complete those activities with a cane or walker. A standard manual wheelchair is expected to improve in-home mobility, and the patient can self-propel short distances; a caregiver is available to assist as needed. See the accompanying mobility evaluation for examination findings.

ORDERING CLINICIAN
